

A large industrial ladle is being tilted by a crane, pouring a bright, glowing stream of molten metal into a mold. The scene is set in a dark, industrial environment with heavy machinery and structural beams visible in the background. The intense heat of the metal creates a bright orange and yellow glow, illuminating the surrounding area. The ladle is suspended by a chain and hook, and the metal being poured is in a continuous, flowing state.

## Valuable Services

Pipe Valves offers the quality products and the best services to improve your bottom-line performance.

-  Pipe Shop: We cut, bevel, groove, and thread
-  Energy audits, steam trap surveys, live steam lab demonstrations
-  Daily local truck routes, emergency delivery options
-  Phone, counter, email, fax and e-commerce ordering options
-  Express sales counter pickup and tool rental
-  Vendor Managed Inventory options customized to your needs
-  Product specialists and staff engineers assist with problem solving
-  Kitting Services - we can bag and tag to your specifications
-  Bin management, bar code scanning and labeling solutions available
-  PV University Classes, Where Seeing Is Believing: Actuation, Valves, Steam
-  24/7 emergency service available in many areas
